DevOps and API Tools : Git, Docker, Postman
Cloud and Security Tools : AWS, SQL Server,
Others : Agile (Scrum/Kanban), Debugging,

EXPERIENCE

Software Developer |Société MARGET S.A.R.L

During a web development internship, I developed custom programs tailored to the company's unique needs, automating tasks and optimizing workflows. I also managed and secured company data, ensuring accurate and efficient handling of sensitive information. This experience honed my skills in data management and application development, directly supporting the company's operational efficiency.

february2024–October2024

EDUCATION

Specialized Institute of Management and Computer Science

diploma in Web Development   *Octobre 2022 – June 2024*

PROJECTS

Project 1 |React native, MongoDb, TailwindCss   *Nov2023*

I created a website similar to Airbnb, allowing users to list and book rental properties. The project involved user authentication, property search, and a booking system, all optimized for both desktop and mobile. This experience strengthened my skills in full-stack development and responsive design.

Project 2 |Nextjs, TailwindCss, Threejs, Framer Motion   *2024*

I developed a front-end website for NFTs, allowing users to browse, buy, and sell digital assets. The platform features a user-friendly interface that showcases various NFT collections, integrates wallet functionality for secure transactions, and provides detailed information on each asset, enhancing the user experience in the NFT marketplace.

Project 3 |React native, TailwindCss, Framer motion   *Octobre2024*

I created a front-end website for a coding agency, showcasing their services and educational resources. The site features an intuitive layout that highlights coding tutorials, project examples, and client testimonials, designed to engage potential learners and promote the agency's offerings

About Me

I am a passionate web developer with a strong interest in creating innovative digital solutions. At 21 years old and originally from Morocco, I thrive on tackling challenging projects and continuously expanding my skills in coding and design. I enjoy collaborating with diverse teams and am eager to contribute to impactful initiatives in the tech industry.
